

# Daniel H.

## Contact

**Address:** 123 Fraser Street, Vancouver

**Phone:** (123) 456-7890

**Email:** daniel.h@example.com

**LinkedIn:** linkedin.com/in/danielh

## Professional Summary

Dedicated Data Scientist with 3+ years of experience analyzing complex datasets and developing data-driven solutions. Skilled in machine learning, statistical analysis, and data visualization tools. Passionate about leveraging data science to solve real-world problems and drive strategic business decisions.

## Skills

- **Programming Languages & Tools:** Python, R, SQL, pandas, NumPy, scikit-learn, TensorFlow
- **Data Visualization:** Tableau, Matplotlib, Seaborn
- **Machine Learning Expertise:** Regression, Classification, Clustering, Deep Learning
- **Soft Skills:** Collaboration, Communication, Problem-Solving, Critical Thinking

## Work Experience

### Junior Data Analyst | Analytics Plus | 2022 – 2023

- Extracted and cleaned large datasets, reducing data processing time by 30%.
- Assisted in developing predictive analytics solutions for client projects in healthcare and finance.
- Generated monthly reports using SQL and Python to inform managerial decisions.

## Education

### Bachelor of Science in Data Science

University of British Columbia | 2015 – 2019

- Relevant Coursework: Machine Learning, Statistics, Database Systems, Data Mining
- Dean's List (2016–2019)
